A ready-to-use insecticide for the home and garden, outdoor and ornamental plants, trees, shrubs, non-bearing fruit trees and lawn. Use in domestic, public, commercial, industrial buildings or premises for the control of many nuisance insects

Check out overleaf for details.

SureFire

Allrounder

READY TO USE INSECTICIDE

ACTIVE CONSTITUENT: 1 g/l ESFENVALERATE

Situation	Pests	How to Apply
Home and garden including indoor and outdoor ornamental plants such as flowers, shrubs, trees, lawn and non-bearing fruit trees	Nuisance pest insects including aphids, bugs, caterpillars, heliothis, leafhoppers, grasshoppers, thrips,	Apply at the first sign of pest infestation and before pest populations build up to damaging levels. Ensure thorough coverage of infested leaves and stems. For delicate plants such as ferns, test a small area of the plant first with only a very light spray. Maintenance Treatment: If necessary, repeat treatment at 3 month intervals or appropriate intervals to prevent re-infestation.
In and around domestic, public service, commercial, industrial buildings/premises (including the home, schools, hospitals, restaurants, hotels, motels, cafes, offices and factories).	Nuisance pest insects including ants, carpet beetles, cockroaches, fleas, flies, mosquitoes, silverfish, spiders, moths, wasps, weevils,	Apply to floors, skirting boards, carpets, cupboards, behind and below sinks, stoves and drains and other insect entry points, particularly cracks and crevices, window sills, window frames and fly screens. Spray outside surfaces of buildings and surrounds including but not limited to foundations, verandahs, window frames, eaves, patios, garages, soil, lawn, trunks of woody ornamentals or other areas where pests congregate or have been seen. Apply to insect nests or trails including spider webs and wasp nests, and around garbage bins. For best results perimeter treatment is advised. Maintenance Treatment: If necessary, repeat treatment at 3 month intervals or appropriate intervals to prevent re-infestation.

SureFire Allrounder is our new ready-to-use liquid insecticide, with these features:

- 1 Extensive label claims for many nuisance pests
- 2 Contains a highly effective active, esfevalerate
